## Part I A New Foundation of Physical Theories

---

|   |    |
|---|----|
| <b>1 Reality</b> .....                                    | 11 |
| 1.1 The Structure of Reality .....                        | 11 |
| 1.2 The Physical Reality .....                            | 12 |
| 1.2.1 The Application Domain of a $PT$ .....              | 12 |
| 1.2.2 The Fundamental Domain of a $PT$ .....              | 13 |
| 1.2.3 The Reality Domain of a $PT$ .....                  | 14 |
| 1.2.4 The Reality Domain of all $PT$ s .....              | 14 |
| 1.2.5 Remarks .....                                       | 15 |
| 1.3 Fairy Tales .....                                     | 16 |
| <b>2 Building of a Mathematical Theory</b> .....          | 17 |
| 2.1 Formal Language .....                                 | 17 |
| 2.2 Axioms and Proofs .....                               | 19 |
| 2.3 Logics .....  | 21 |
| 2.4 Set Theory .....                                      | 27 |
| <b>3 From Reality to Mathematics</b> .....                | 33 |
| 3.1 Recording Process .....                               | 34 |
| 3.1.1 Basic Language .....                                | 34 |
| 3.1.2 Application Domain of a $PT$ .....                  | 44 |
| 3.1.3 Recording Rules .....                               | 44 |
| 3.1.4 Facts Recorded in the Basic Language .....          | 45 |
| 3.2 Mathematization Process .....                         | 46 |
| 3.2.1 The Basic Mathematical Theory .....                 | 46 |
| 3.2.2 The Standard Mathematical Theory .....              | 48 |
| 3.2.3 Enrichment of $MT_{\Theta}$ by $\overline{A}$ ..... | 50 |

|          |  |     |
|----------|--|-----|
| 3.2.4    | The Finiteness of Physics.....   | 52  |
| 3.3      | Idealization Process.....  | 53  |
| 3.3.1    | Transition from $MT_{\Theta}$ to $MT_{\Delta}$ .....                             | 53  |
| 3.3.2    | Enrichment of $MT_{\Delta}$ by $\bar{A}$ .....                                   | 56  |
| 3.3.3    | Fundamental Domain of a $PT$ .....   | 60  |
| <b>4</b> | <b>Species of Structures and Axiomatic Basis</b>                                 |     |
|          | <b>of a <math>PT</math></b> .....  | 63  |
| 4.1      | Mathematical Structures.....   | 64  |
| 4.2      | Deduction of Structures.....   | 67  |
| 4.3      | Axiomatic Basis and Fairy Tales.....   | 73  |
| 4.4      | Pure Laws of Nature.....   | 76  |
| 4.5      | Change of the Mathematical Form of an<br>Axiomatic Basis.....                    | 78  |
| 4.6      | Inaccuracy Sets and Uniform Structures.....                                      | 85  |
| 4.7      | Do the “Laws of Nature” Describe Realities?.....                                 | 92  |
| 4.8      | Classification of Laws of Nature.....  | 96  |
| 4.9      | Skeleton and Uninterpreted Theories.....   | 101 |
| <b>5</b> | <b>Relations Between Various <math>PT</math>s</b> .....                          | 105 |
| 5.1      | Relations Between Two $PT$ s with the Same Application<br>Domain.....            | 106 |
| 5.2      | Relations Between Two $PT$ s with a Common Part of an<br>Application Domain..... | 111 |
| 5.3      | Pre-theories.....  | 112 |
| 5.4      | Relations Between $PT$ s with Different Application Domains ..                   | 116 |
| 5.5      | Approximation Theories.....  | 117 |
| 5.6      | The Network of $PT$ s.....   | 118 |
| <b>6</b> | <b>Real and Possible as Physical Concepts</b> .....                              | 121 |
| 6.1      | Closed Theories.....   | 124 |
| 6.2      | Physical Systems.....  | 128 |
| 6.3      | New Concepts in a $PT$ .....   | 131 |
| 6.4      | Indirect Measurements.....   | 133 |
| 6.5      | Classifications and Interpretations.....   | 138 |
| 6.6      | The Reality Domain of a $PT$ .....   | 143 |

---

**Part II Examples of Simple Theories**

---

|          |   |     |
|----------|---|-----|
| <b>A</b> | <b>A Description of the Surface of the Earth,<br/>or of a Round Table</b> ..... | 147 |
| <b>B</b> | <b>A Simplified Example of Newton’s Mechanics</b> .....                         | 159 |

|   |     |
|---|-----|
| <b>C The Structure of the Human Species</b> ..... | 167 |
| <b>References</b> .....                           | 173 |
| <b>List of Symbols</b> .....                      | 175 |
| <b>Index</b> .....                                | 177 |
